**Attention: COVID-19 Vaccinations Available in Florida**

Dear Community Members,

Since the start of COVID, the SCA has organized a network of incredible medical professionals, Rabbinic and lay leaders, along with our local community organizations and schools, all working *together* to help our community get the best possible care and guidance throughout the pandemic. This network of exceptional volunteers and professionals have helped coordinate responses amongst institutions, launch public awareness campaigns, facilitate the expansion of monoclonal antibody awareness and treatment, supported patient advocates and much more.

While our team is working on getting updated information for Deal and Brooklyn, we do have the latest information regarding the COVID vaccine in Florida:

Clinics and hospitals have begun vaccinating individuals over the age of 65. They have also begun vaccinating people in high-risk categories, including those with cancer, chronic kidney disease, COPD, heart conditions, obesity, pregnancy, sickle cell disease, type 2 diabetes and those who are immunocompromised. If you have a different medical condition and are under 65, check to see if it qualifies you for the vaccine. To receive the vaccine you must schedule an appointment and meet the criteria. To schedule an appointment see the following contact numbers or websites.
